

D4-D EGR Blanking Plate Guide

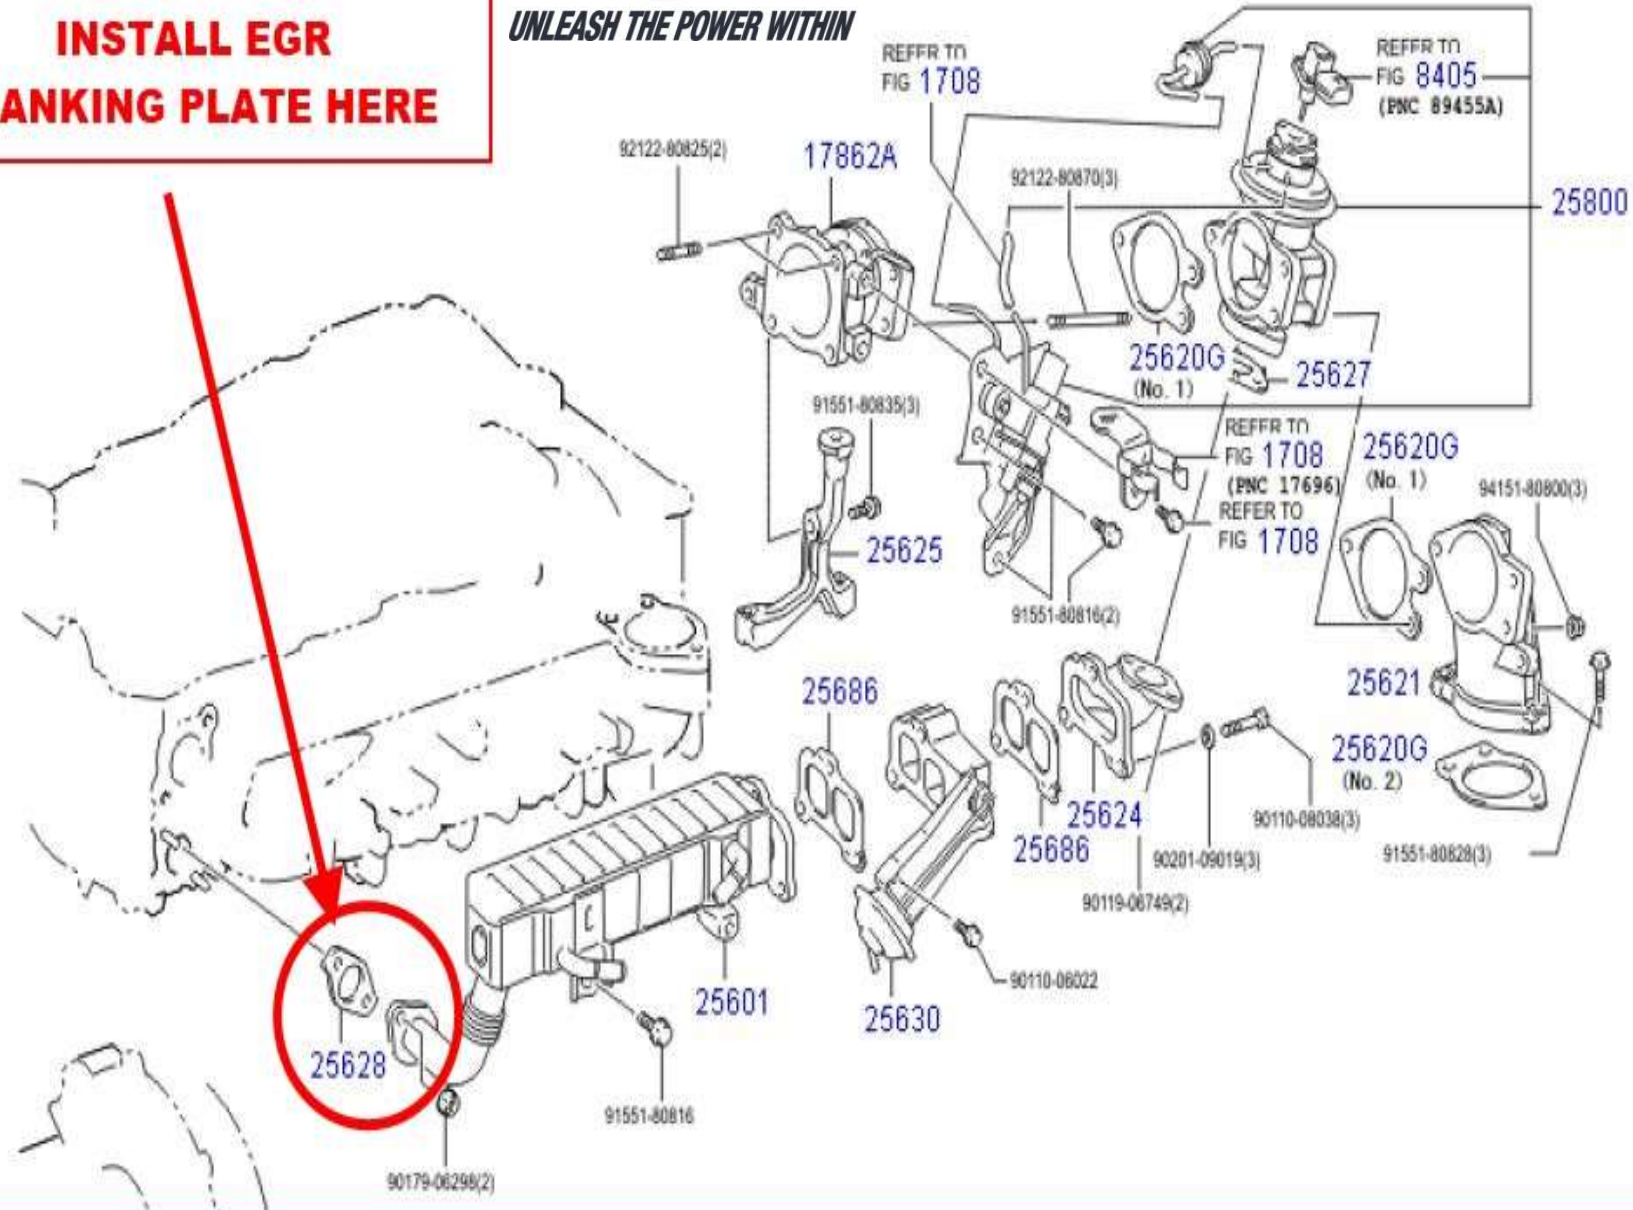

UNLEASH THE POWER

Hilux EGR System

UNLEASH THE POWER WITHIN

**INSTALL EGR
BLANKING PLATE HERE**

REMOVED THE ENGINE COVER

UNLEASH THE POWER WITHIN

UNLEASH THE POWER WITHIN

FIRSTLY, LOOSEN THE BOLTS (FRONT AND REAR) OF THE COOLER SO THAT IT CAN BE LEVERED OUT OF THE WAY

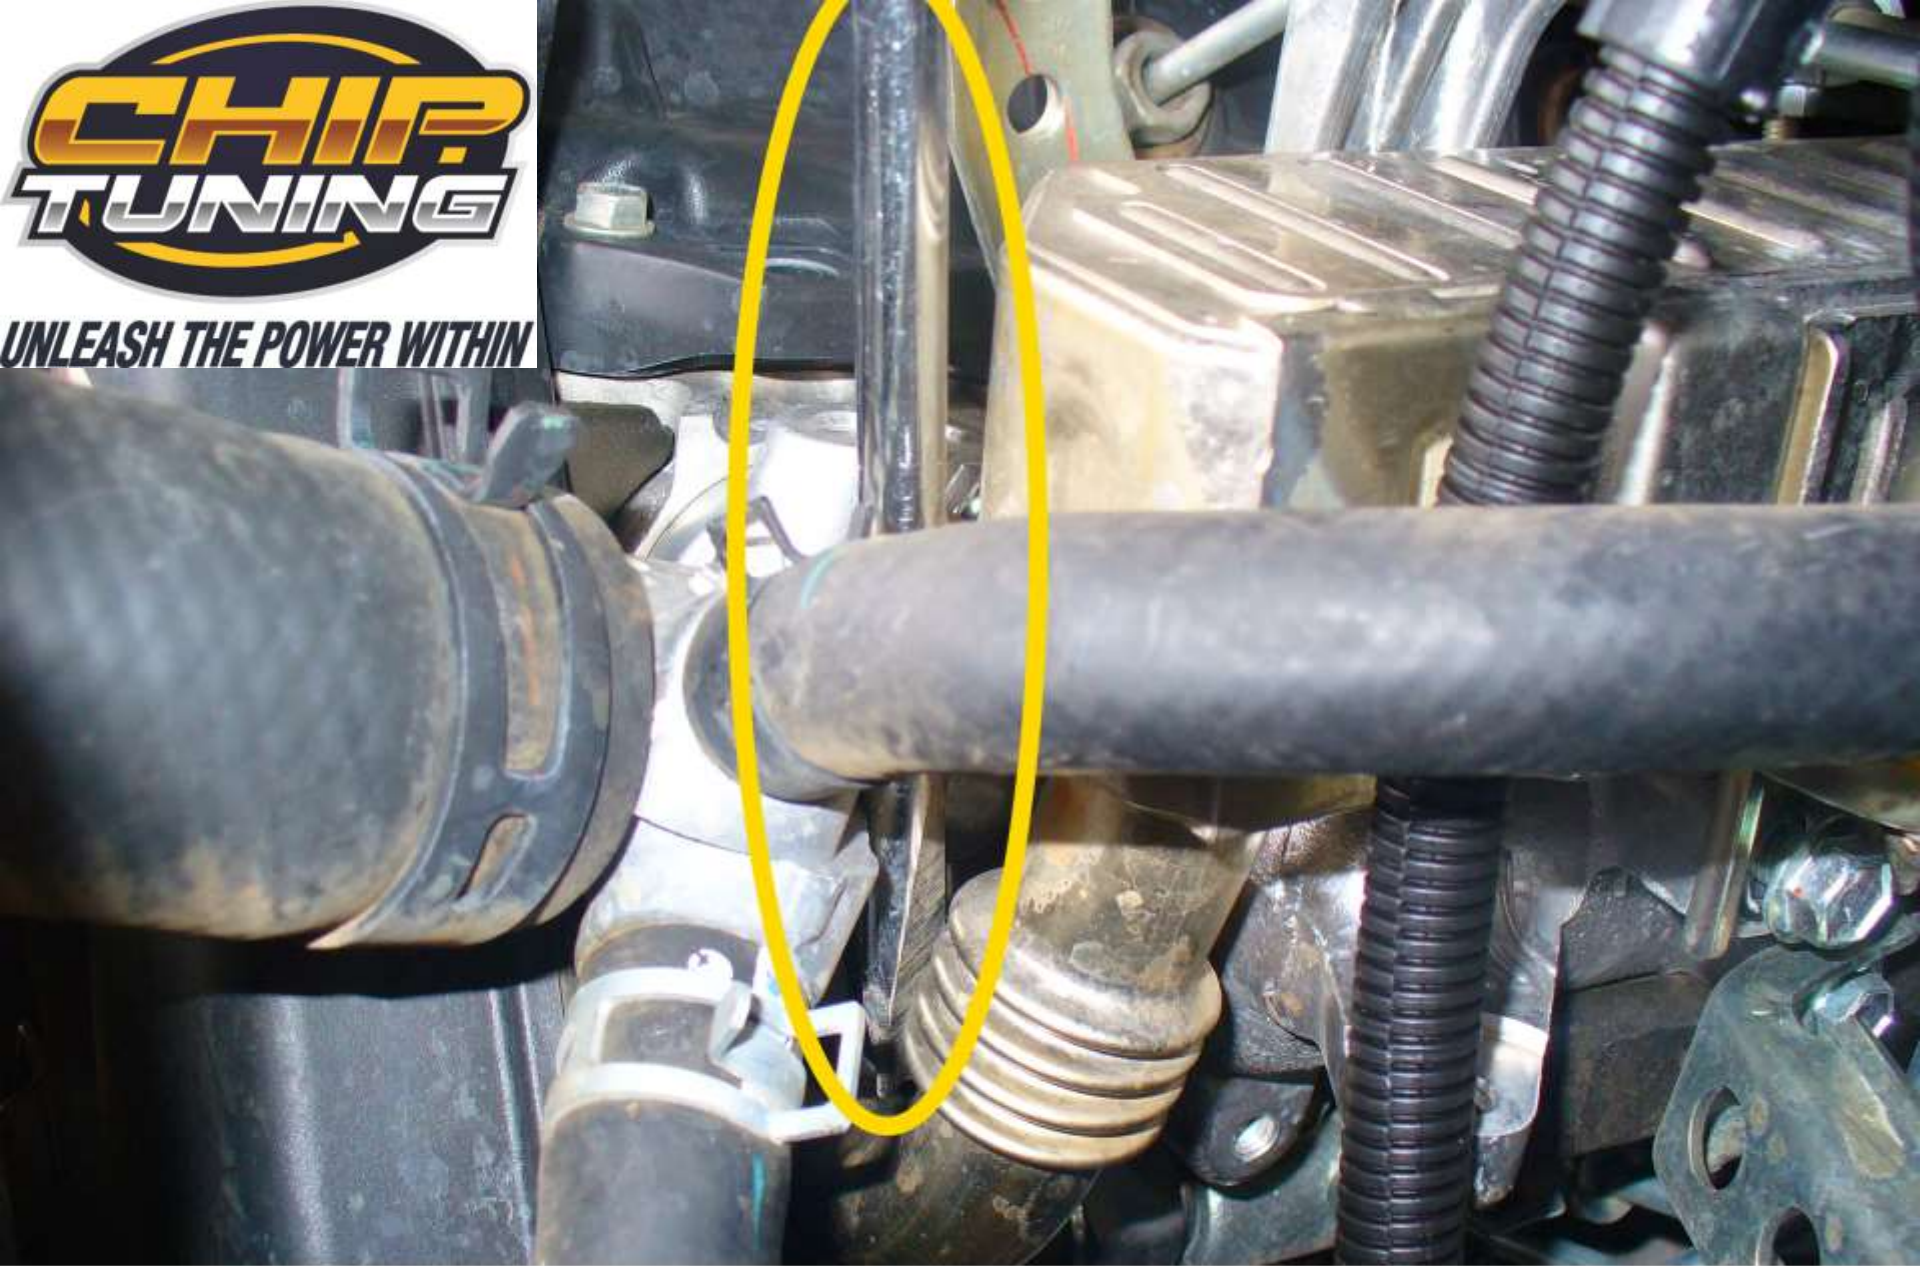

UNLEASH THE POWER WITHIN

Then loosen the 2 nuts that hold the pipe to the head.

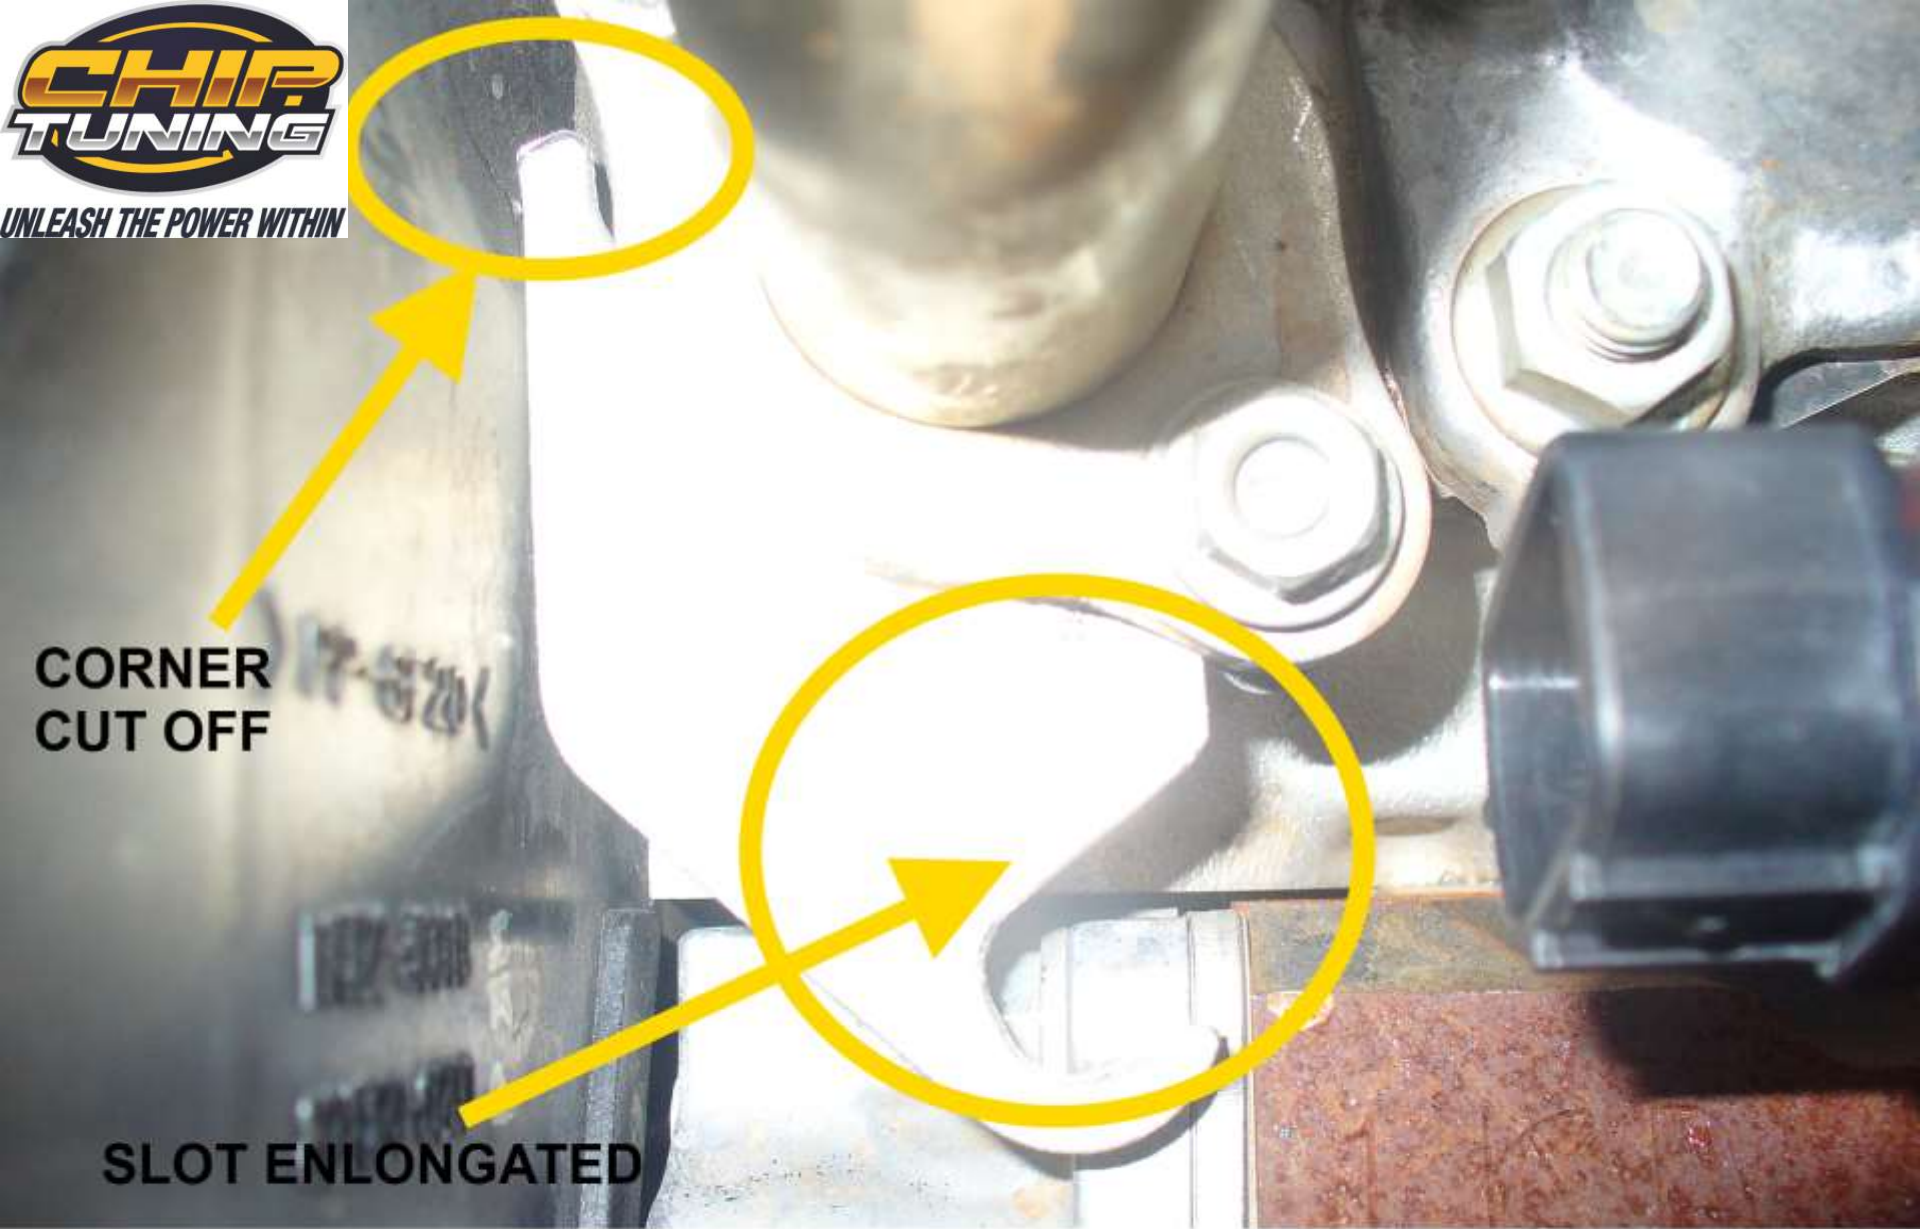

UNLEASH THE POWER WITHIN

Next place a screwdriver between the thermostat housing & EGR Cooler pipe & lever it sideways.(Cont)

**Lever EGR Cooler sideways so you can slip
in the EGR Blanking Plate**

**CORNER
CUT OFF**

SLOT ENLONGATED

For easier fitment the plate should have 1 corner cut off it and the opposite side filed down slightly so it slides past the bolts.

Tighten all in reverse order.

NB: There is no need to use gaskets
or sealants.

DO NOT LEVER THE COOLER TOO
HARD AS YOU CAN EASILY CRACK
THE WELDS INSIDE. JUST GO EASY.
